

\*\*\*\*\*Year 5 Home Learning Menu\*\*\*\*\*

Your child needs to choose 2 items for the menu. These projects need to be in Thursday 25th April as we will be having an open classroom exhibition from 2:50pm to showcase all the children's work.

Menu:

Design a poster for Battle Abbey - English Heritage site, include all the things that children/adults can do there, cost, where it is etc.

Draw/paint/collage a landscape picture depicting smuggling in the local area.

Design (if you make the bread-take pictures) bread and/or biscuits for a mediaeval banquet. Draw the product, listing ingredients and an evaluation of the bread/biscuits.

Design a coat of arms which include a dragon. If you wish you could make a small (hand size) prototype of a shield with this coat of arms on.

Create a power point about Battle Abbey – English Heritage site. Explain why it is an important site to visit.

Create a power point about dragons. Where they live, what they eat, different types of dragons around the world and rare types of dragons.

Design a mythical creature. Give it a name, where it lives, what they eat, what they look like, their predators and prey.

Create a game either about smuggling or dragons. It can be a card game, board game or a computing game (Purple Mash).

The children also need to complete an hour of Times Table Rock Stars & an hour of Spellzone over the two week holiday (half an hour each week is fine). Those who complete more than this time will receive special rewards in class.

Thank you

Mrs Jackson
