

Year 1

Message from Miss Hayes-Smith, Mrs Rimmer and Miss Flook

This term the children will be exploring traditional tales in English where they will be looking closely at story language and the rule of 3. We will continue to explore number and place value in maths. We will solve a range of addition and subtraction calculations whilst practicing to count forwards and backwards in steps of 2, 5 and 10. In science we cannot wait to explore plants and understand what they need to survive and grow, and develop our knowledge under the heading of healthy body, healthy mind in our wellbeing curriculum.

Home Learning/Reminders

Reading: Please support your child by listening to and encouraging them to read their book each day at home .

Home learning menu: Please encourage your child to choose from a range of activities to complete either on their own or with an adult.

We can't wait to celebrate their learning from home in school!
