19th June 2017

Dear Parents and Carers,

Exposure to the Sun

It is expected that your child, during the school day, will be exposed to the sun. There is concern that over exposure to the sun can be harmful.

To protect the skin from these harmful effects, it is recommended that pupils wear sun hats and light coloured, loose fitting tops with collars. The application of an appropriate sunscreen before school will help to protect the skin. If you would like your child to apply sunscreen themselves again at lunchtime (with support), please send a bottle of named sun screen to school.

All children must have a sun hat in school.

(Legionnaire style ones are ideal)

The weather this term is usually good but the forecast for this week is predicting high temperatures.

As usual we will monitor the forecast for any forthcoming school trips and advise you nearer the time, of any particular changes/requirements.

Yours sincerely,

Becky Reed
Headteacher
