Online Safety: Acceptable Use Policy for Students

Dear Parents and Guardians,

As part of their learning and development, your child will have the opportunity to access a wide range of digital technologies, including computers, games and I-pads at school. We recognise the value of using these digital technologies but also of and the potential risks involved. We therefore have rigorous online safety policies and procedures in place which are available on our website.

During a time of Remote Home Learning your child will also need to access digital technology at home, as they do at school. We recognise the value of using these digital technologies but, also, the potential risks involved.
In order to support us further in developing your child's knowledge and understanding about online safety, please read the policy below and discuss this with your child. We understand that your child is too young to give informed consent on his / her own; however, we feel it is good practice to involve them as much as possible in the decision-making process, and believe a shared commitment is the most successful and safest partnership.

Hopefully, you will also find these rules provide an opportunity for further conversations between you and your child about safe and appropriate use of the online and digital technologies, both within and beyond the early years setting environment, such as at home or at a friend's home.

Kind regards,

Becky Reed
