

Year 2

Message from Miss Hayes-Smith and Mrs Rimmer

This term the children will be exploring the quality text 'The Storm Whale' in English and will make links to their science topic, Animals including humans. This will then lead their learning to Geography where they will be exploring the weather and will discuss how it can affect theirs and other people's lives.

In PE we cannot wait for them to participate in dance where they will build longer sequences of movement and incorporate a range of shapes and travelling steps into their sequences.

Home Learning/Reminders

Reading: Please support your child by listening to and encouraging them to read their book each day at home .

Home learning menu: Please encourage your child to choose from a range of activities to complete either on their own or with an adult.
